Energy storage systems
Solar power solutions**

Wireless & GSM /GPRS products & solutions

TOTAL SOLUTIONS & SERVICES OVERVIEW

***The Leader in
Industrial Automation,
Field Instruments, Control Devices, Engineering
Construction and Maintenance***

COMPANY OVERVIEW

Established in 2002 Reliance Industrial Automation Group specializes in the supply of reliable industrial products and solutions to local and multinational corporations from the Oil & Gas, Petrochemicals, Power, Utilities, Transportation & Chemicals, Semi-Conductor, steel, Aluminum, manufacturing plants Food, Pulp & Paper Industries focusing on Instrument and control including Telecom. We can be single source of contact for your industrial automation needs. Our client base includes ADNOC and ENOC group companies. We can support E&I subcontract for major EPC contractors.

Reliance Industrial Automation is highly recognized as a reliable Industrial Automation, Networks, Industrial IT and Industrial Telecommunications Specialist with a sound market reputation, global expertise, strong partners, and a pool of versatile, dedicated, experienced and qualified in-house engineers. and support staff stretched across several regions.

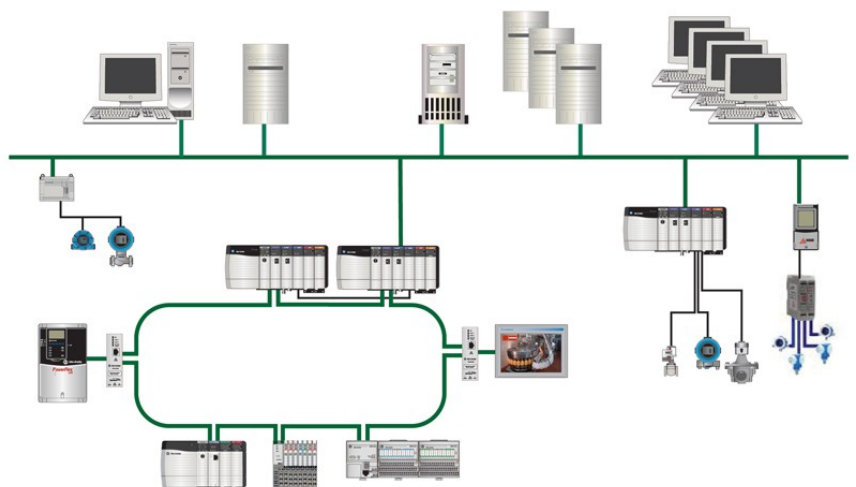

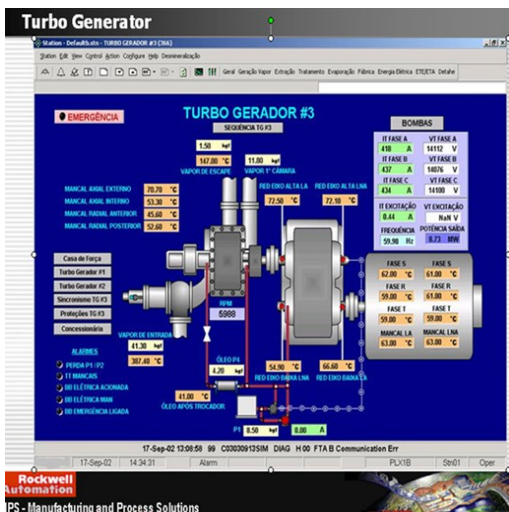

Reliance Industrial Automation is the Integration Partner of major top manufacturers. RIA is the cheapest and the best due to the capacity to arrive at a direct agreement with the manufacturers

PLC /RTU/ SCADA / DCS/ESD System Integration and Automation solutions

We are committed to build long-term relationship with our customers by providing high quality Automation Solution Combined with faster response, Service and Support. Automation system solutions including Rockwell Allen Bradley PLC Siemens and GE Fanuc are provided by us. We have system integration facility for staging and supporting Main Automation contractors (MAC) work including Automation and Telecom systems for oil & gas projects.

Our System Integration using Market leaders such as below or depending on client requirement any PLC or SCADA. For Remote monitoring we are authorized system integrator for 

FIELD INSTRUMENTS AND WEIGH SCALES CALIBRATION AND MAINTENANCE SERVICES

We have range of field instruments measurement solution for petroleum products . We do calibration for instruments using standard test instruments. We are registered with DAC to comply with ISO 17025 accreditation for calibration services of weigh scales and instruments . We have expertise in Merrit, Schenk Siemens and Avery scales.

PRESSURE GAUGES AND CHART RECORDERS CALIBRATION AND RENTAL SERVICE

We have range of pressure gauges and chart recorders for rental service. We can calibrate pressure gauges and chart recorders range maximum up to 20KPSI

HYDRAULIC TEST SKID INCLUDING SUPPLY OF TEST PUMPS ON RENTAL BASIS

RIA has exceeded the expectations of companies on quality as well as technology front. We have Range of hydraulic test pumps DHDA 33 & DHDA66 PUMPS for small, compact, or a high / low system complete with all the accessories.

ENGINEERING PROCUREMENT CONSTRUCTION AND MAINTENANCE

We deliver world-class cost effective small and large scale projects. We provide full support to the business partner by using advanced engineering methods to make it success without design confliction and construction. RIA accelerate production by providing as built drawings on spot to avoid delaying construction progress which reliable and satisfied to the design and engineering of client. RIA updates with clients for the timeline and workflow progress regularly.

- ◇ Our Areas not limited But...
- ◇ Oil & Gas and Refineries.
- ◇ Chemical and Petrochemicals.
- ◇ Pipelines and cross country Pipelines.
- ◇ Thermal & Non-Conventional and Nuclear Power.
- ◇ Hydrocarbon.
- ◇ Fertilizers.
- ◇ Water & Utilities.
- ◇ Building construction (Housing & Industrial)
- ◇ Cement Plants.

PROVIDING SKILLED RESOURCES

Reliance Industrial Automation and partner company REC have huge data base of engineers, designers, technicians, operators who can be supplied on short term or long term for man-hour rate basis or direct hire basis based on client requirement. The resources are sourced as per client requirement for any discipline.

CCTV/SURVEILLANCE PRODUCTS & SOLUTIONS

Reliance Industrial Automation with a strong team of experienced personnel specialized in CCTV, video networking and security systems and capable of complying with the most different individual customer requirements and provide optimum problem solutions to every application.

Reliance Industrial Automation also offers a complete comprehensive package for closed circuit television system and our products include configuring remote surveillance systems through various transmission methods such as Coaxial Cable, Fiber Optic, Telephone Line, TCP/IP Network, Satellite or RE/ Microwave, Etc.

ACCESS CONTROL SYSTEMS

Reliance Industrial Automation's Access Control systems are one of the most important Infrastructures for a safe, secure society. Varieties of configurations are possible to meet your operational needs.

LIGHTNING & SURGE PROTECTION SOLUTIONS

Reliance Industrial Automation provided a wide range of surge protection solutions to suit most of industrial applications. The 'Novaris systematic approach' is a step-by-step solution to lightning and surge protection that can be applied to any application.

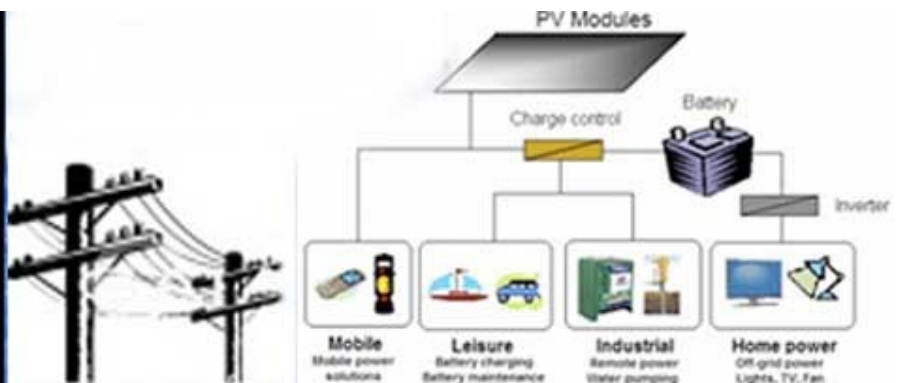

INDUSTRIAL UPS, AC & DC POWER SUPPLIES & ENERGY STORAGE SYSTEMS

RIA has joined hands with Magellan Power, a leading industrial power solutions provider in Australia and very capable of providing total turnkey solutions associated with AC & DC Power Supply Systems, Renewable Energy, Energy Storage Systems, Batteries and Industrial & Commercial UPS Systems. Services include sit installation, pre-commissioning and commissioning, start-up assistance and annual maintenance. RIA's ultimate objective is to contribute substantially in the most cost effective manner in the Oil & Gas, Mining and Infrastructure industries

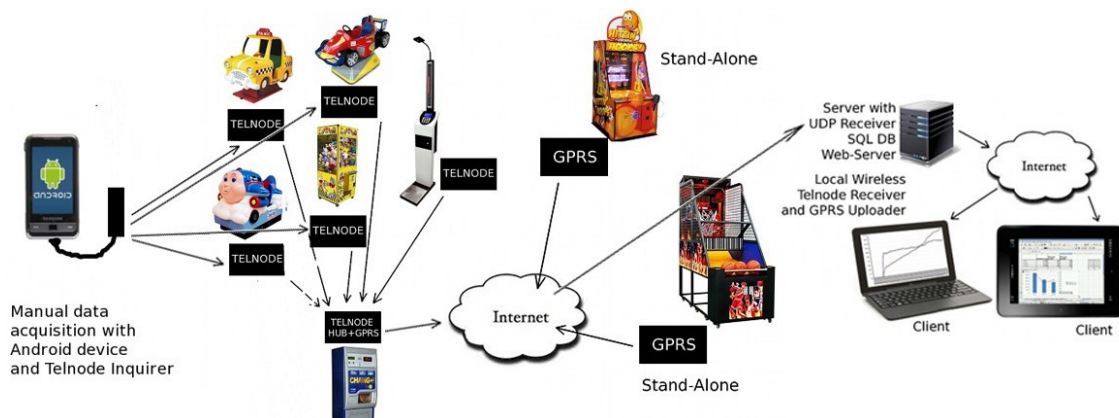

SOLAR POWER SOLUTIONS

RIA is well positioned for providing total turnkey EPC solutions resulting in Major Solar Power Stations to its customers in the UAE and is capable of entering on to EPC agreements with private players for the development of solar plants and utilities (solar thermal and solar PV) solutions

WIRELESS & GSM / GPRS PRODUCTS & SOLUTIONS

Reliance Industrial Automation has a series of innovative wireless data communication products that provides wires devices and client/server networks with direct access to an existing wireless LAN, profi-bus, RF modems, GSM/GPRS modems, wireless IP cameras, etc.

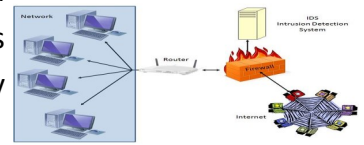

IT NETWORKING & DATA CENTER SOLUTIONS USING BRANDED DEVICES

RIA provides comprehensive and customized IT and networking solutions. We perform full-service IT management for organizations with service and security needs.

RIA provides Data Center solutions help clients increase their productivity and performance whilst we efficiently manage their business critical IT infrastructure and business support functions. Datacenter in combination with access control & CCTC would provide continuous back up of critical data at remote location ready to retrieve on need basis

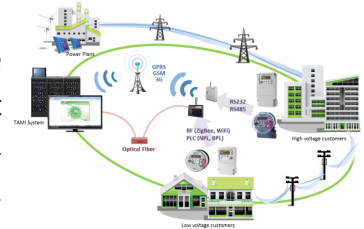

CYBER SECURITY SOLUTIONS

Interconnected industrial automation systems face new security challenges such as hacking, industrial espionage, and sabotage. Securing these systems requires a perpetual chain of trust that spans all devices, data, and systems. Architectural requirements include hardened devices, secured communications, and consistent security monitoring and management.

TOTAL INDUSTRIAL TELECOMMUNICATION SYSTEM SOLUTIONS

Reliance Industrial Automation offers communication systems and solutions that are tailored to meet practical needs in the real world. We maintain a commitment to individual client services, to professionalism in all aspects of its operations, and to the provision of technically superior information gathering and management systems. Our commitment to help clients enhance their competitive positions and financial performance is achieved through our outstanding marketing, system engineering, and customer engineering support.

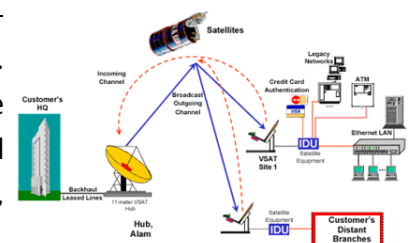

RFID & REAL TIME LOCATION TRACKING (RTLS) PRODUCTS & SOLUTIONS

Reliance Industrial Automation's Radio frequency identification (RFID) is a mechanism for data transfer by electromagnetic waves. It works by detection and unique identification of a transponder tag by a reader. The tag responds to the reader's radio signal with its own identity and other stored data. RFID systems can be integrated with enterprise applications to help reduce human errors and improve the speed and accuracy of business processes.

MICROWAVE RADIO SYSTEMS & VSAT SATELLITE COMMUNICATIONS NETWORKS

We offer a full range of Microwave Radio system for PDH and SDH networks. We offer the complete spectrum of turnkey Microwave design, installation and project management services as well as a complete range of Microwave products that provide solutions for data, video and audio transmission with frequencies ranging from 3.5GHz, 5.8GHz, 6GHz, 7-8GHz, 13GHz, 15GHz, 18GHz, 23 GHz, 26 GHz and up to 60GHz.
